

Micronutrient Testing

Vitamin, mineral and antioxidant deficiencies have been shown to suppress the functions of the immune system which can contribute to the overall condition of one's health and diseases such as:

- Arthritis
- Cancer
- Cardiovascular disease
- Diabetes

50% of people taking multivitamins are still nutritionally deficient.

- William Shive, University of Texas at Austin

But I eat a balanced diet, exercise and take a multivitamin...

MANY PEOPLE WORK AT IMPROVING THEIR HEALTH, YET SOME INDIVIDUALS STILL HAVE DEFICIENCIES. WHY?

BIOCHEMICAL INDIVIDUALITY

Because each of us is metabolically and biochemically unique, the micronutrient requirements for one person may be quite different than the requirements for another.

ABSORPTION

Although you may eat a balanced diet, if you do not absorb vitamins, minerals, antioxidants and/or other essential micronutrients properly, you will have deficiencies.

CHRONIC ILLNESS

Health conditions such as arthritis, cancer, cardiovascular disease, diabetes, fatigue and multiple sclerosis, to name a few, can be affected, directly or indirectly, by micronutrient deficiencies.

AGING

Our micronutrient requirements at age 30 are quite different from our requirements at age 40, 50 and beyond. Absorption difficulties, especially of vitamin B12, quite commonly occur as we age.

LIFESTYLE

Excessive physical activity, prescription drugs, smoking, alcohol and sedentary habits all impact micronutrient demands.

Are YOU getting the nutrients YOU need?

STANDARD TEST RESULTS DO NOT MEASURE IF NUTRIENTS ARE PROPERLY FUNCTIONING WITHIN THE BODY.

SpectraCell Laboratories developed their exclusive, patented micronutrient tests to measure the function of selected vitamins, minerals, antioxidants and other essential micronutrients within your white blood cells. Analysis can reveal a person's functional nutrient status over a much longer time period than conventional serum testing. SpectraCell's tests give a more meaningful measurement of nutritional status than all other nutritional testing.

PAYMENT METHODS

- Check or Credit Card - All payments to SpectraCell may be made by check or major credit card.
- Medicare - SpectraCell accepts Medicare assignment. Most test components are reimbursable when ordered for diagnostic purposes by a licensed Medicare provider.
- Insurance - When ordered for diagnostic purposes, test components are reimbursable by most insurance carriers.

You may be deficient in these vitamins, minerals, antioxidants and/or other essential micronutrients and not even know it.

VITAMINS

Vitamin A
Vitamin B1
Vitamin B2
Vitamin B3
Vitamin B6
Vitamin B12
Vitamin C
Vitamin D
Vitamin K
Biotin
Folate
Pantothenate

MINERALS

Calcium
Magnesium
Manganese
Zinc
Copper

AMINO ACIDS

Asparagine
Glutamine
Serine

ANTIOXIDANTS

Alpha Lipoic Acid
Coenzyme Q10
Cysteine
Glutathione
Selenium
Vitamin E

SPECTROX™
for Total
Antioxidant
Function

IMMUNIDEX™
Immune Response Score

CARBOHYDRATE METABOLISM

Chromium
Fructose Sensitivity
Glucose-Insulin
Metabolism

FATTY ACIDS

Oleic Acid

METABOLITES

Choline
Inositol
Carnitine
